Institute for Non-Profit Excellence Leadership Development Grant

Mr. Chris Haskins notified the Board that he would shift the order of the agenda related to his report. He began by explaining that the School was awarded a grant by the Rhode Island Foundation for leadership development for faculty, and explained that the grant would cover approximately half of the expenses for training of faculty, including four days of off-site training as well as extensive work throughout the year. The dates of the off-site training are August 9-10, 2016; February 21, 2017; and June 26, 2017.

PARCC Update/SIT Update

Mr. Haskins distributed the School's disaggregated data of the PARCC results, and explained that the results were baseline results only, and cautioned that it was not comparable across districts throughout the state. He explained that this data would help develop a plan of action for improvements, and noted that the emphasis would be on vocabulary in order to help students in other subjects. He noted that implementation of explicit instruction in vocabulary had begun across all grade levels. Mr. Haskins gave an overview of the

ongoing work of the School Improvement Team, and noted that the SIT had done an enormous amount of work to ensure that the curriculum be updated in order to improve student outcomes. Several questions ensued, including how the School would support parents; how the School would deliver results to parents; whether the results reflected only ELL students; and whether there is a national database for comparisons of PARCC results. Mr. Haskins explained that the School would disseminate the results at parent forums; that the results reflect all students, not only ELL students; and that there is currently no national database.
